

Psychology

BBA — 5th Semester — 2024 — Answer Sheet
Subject Code: PSY202

Note: This answer sheet is currently a template. Detailed answers will be added progressively. Students are encouraged to refer to textbooks and class notes.

Section A

Brief Answer Questions: [10 × 2 = 20]

1. How was psychology characterized during the structuralism period?

Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]

2. What is the distinction between growth and development?

Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]

3. What are perceptual constancies?

Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]

4. Summarize the key findings of Milgram's obedience experiment.

Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]

5. What are the essential features of learning?

Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]

6. What is the motivational cycle?

Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]

7. In the memory process, what does encoding involve?

Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]

8. Identify the elements of thought.

Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]

9. Explain the concept of empathy.

Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]

10. What are the strengths of the objective approach in measuring personality?

Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]

Section B

Short Answer Questions:(Attempt any SIX Questions)[6 × 5 = 30]

11. What is long-term memory? Discuss its types and functions.

Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]

12. Define reinforcement. Differentiate between positive and negative reinforcement.

Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]

13. What is creativity? What factors influence it?

Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]

14. Discuss the applied fields of psychology.

Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]

15. Describe psychosocial issues during childhood.

Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]

16. What is motivation? Discuss its implication for managers.

Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]

17. What is subjective well-being? Why is it important?

Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]

Section C

Long Answer Questions:(Attempt any THREE Questions)[3 × 10 = 30]

18. What are projective tests? How do they measure personality?

Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]

19. What is stress? Discuss its causes and consequences.

Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]

20. What are memory dysfunctions? Discuss the various types.

Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]

21. What is emotion? Discuss the application of emotions in organizations.

Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]

Section D

Comprehensive Answer / Case / Situation Analysis Questions:[4 × 5 = 20]

22. Analyze the following case carefully and answer the questions that follow: John, a 35-year-old software developer, has shown fluctuating work performance over the past year, largely influenced by his personality traits. As a conscientious individual, John is highly detail-oriented and dependable, ensuring his work is of high quality with minimal errors. However, this same trait leads to over-analysis, causing delays in meeting deadlines. His moderate extraversion means he enjoys teamwork but prefers solitary work when under pressure, which sometimes causes disengagement during collaborative projects. John's high openness to experience allows him to bring creative solutions to technical problems, but it can also distract him from project goals as he gets caught up in experimenting with new technologies. One of his biggest challenges is his high neuroticism, making him prone to stress, especially when deadlines approach, which hinders his productivity. Additionally, his moderate agreeableness and low assertiveness make him a cooperative team member but prevent him from addressing conflicts or taking on leadership roles. To improve his performance, John could benefit from stress management training, assertiveness workshops, and time management coaching. These interventions could help him balance quality with timeliness and manage interpersonal dynamics more effectively, improving his overall work consistency and leadership potential.

Questions:

- What is a personality trait, and why is it important?
- Explain the Big Five model of personality traits.
- How does the big five model help predict work behavior?
- Based on the case study provided, what type of personality would be most ideal for workplace performance?

Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]

These answer sheets are prepared for educational purposes. Students are encouraged to verify with official textbooks and course materials.
