2023

Bachelor in Computer Applications

Course Title: **English I**

Code No: Semester: I

Full Marks: **60** Pass Marks: **24** Time: **3 hours**

Candidates are required to answer the questions in their own words as far as practicable.

Note: Group A (Multiple Choice Questions) is not available from the source. The paper begins with Group B.

Group B

2. Suppose you are creating video blog (vlog) on the issue of "Defining reality" in communication. Mention the strategies you have already learned and used when communicating.
3. Write a paragraph on how the online technology served the people in your community during the prolonged period of lockdown because of Covid-19.
4. Form a new word using each of the following prefixes: extra- non- tele- dis- trans- E
5. Write Asimov's laws of robotics.
6. Briefly point out how multimedia systems will ever become as popular as conventional audiovisual systems.
7. Learning a programming language is like learning any natural language; the only difference is that you are communicating with a machine instead of another person. Do you agree with this statement? Explain the reasons to support your answer.
8. Write a job application to the post of Junior IT Assistant highlighting your skills on the impact of reliance on Artificial Intelligence in today's world.

Group C

Attempt any TWO questions[2x10=20]

9. Write a letter of complaint to the concerned authority about the insufficient bus service which you use every day to get to your campus. Explain the inconveniences that you and other passengers have to put up with. And suggest the ways of improving the service.
10. How virtual realities are replacing in-person activities? Give specific examples and explain your opinions.
11. Assume that you work for Sagarmatha IT Solutions Company as an IT Assistant Officer. Your work environment is experiencing a problem (with staff scheduling, layoffs, quality, quantity, morale, honesty, and so on). Write a memo noting the problems and solutions.
