

## Advanced DotNet Technology

BCA — Semester VII — 2025 — Answer Sheet

Subject Code: CACS483

**Note:** This answer sheet is currently a template. Detailed answers will be added progressively. Students are encouraged to refer to textbooks and class notes.

### Group B

**2. What is thread? Write a C# program to create multiple thread along with main Thread.**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**3. What is difference between SDI and MDI application? How form inheritance can be performed in windows application?**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**4. What is disconnected architecture in ADO.NET? How ADO.NET differs from classical ADO?**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**5. What is difference between HTML server control and Web server control? Explain with example.**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**6. What is authentication? Briefly explain form authentication in ASP.NET.**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**7. Explain different controls of ASP.NET AJAX.**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**8. What is kestrel? How it differ from IIS?**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

### Group C

Attempt any TWO questions[2x10=20]

---

**9. Differentiate between class and interface? Why do we need serialization in file handling in C#? Write a C# program to save Student record (roll, name, address, and phone number) into file "student.txt" and then display student record.**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**10. What are advantages of ASP.NET MVC? Explain different state management techniques in ASP.NET.**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**11. What is validation control in web development? Explain various control for validation in ASP.NET with suitable program.**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*
