

## Research Methodology

BCA — Semester 6 — — Answer Sheet

Subject Code:

**Note:** This answer sheet is currently a template. Detailed answers will be added progressively. Students are encouraged to refer to textbooks and class notes.

### Group B

Attempt any Eight questions[8x5=40]

**1. What is research design, and why is it important in research? Also, discuss the key features of a good research design.**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**2. What is called review of literature? What is the importance of conducting a literature review in research?**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**3. What is questionnaire, and what are the key characteristics of a well-structured questionnaire?**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**4. What are the characteristics of scientific research methods?**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**5. What is research hypothesis? What are the criteria of good research hypothesis?**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**6. Discuss the process of identifying and formulating a research question.**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**7. How can reference management software like Zotero or Mendeley assist researchers?**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

---

**8. Define reliability and validity with an appropriate example for each.**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**9. Differentiate descriptive statistics and inferential statistics.**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**10. Discuss the methods of presenting data using frequency tables, bar charts, and pie charts.**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**11. Prepare a format of an academic research report.**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**12. Write short note on a) Stratified Sampling b) Plagiarism**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*
