

## System Analysis and Design

CSIT — 5th Semester — 2082 — Answer Sheet  
Subject Code: CSC326

**Note:** This answer sheet is currently a template. Detailed answers will be added progressively. Students are encouraged to refer to textbooks and class notes.

### Section A

**1. List different phases of project management. Explain the different steps involved in the first phase of project management.**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**2. Compare and contrast between observation and document analysis while requirement determination. Explain radical methods for determining the requirements.**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**3. Draw DFD for the following scenario: A patient after registration in the online pathology system will get login credentials. After the valid login the patient upon entering the details of test to be conducted will get the test date and time. The patient can also pay online. The patient can download the test report from the system after notification. The patient will also get schedule for doctor visit if required and in that case the report will also be emailed to the doctor.**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

### Section B

*Attempt any Eight questions[8×5=40]*

**4. Highlight the critical factors that distinguish agile methods from traditional methods.**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**5. Illustrate the heart of the software development process.**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

---

**6. An initial investment of Rs. 5,00,000 is required to start a company. The cash flow-in is Rs. 60,000 per year. Assuming the interest rate as 15%, calculate the discounted payback period. (use Net Present Value)**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**7. Explain the steps involved in the dialogue design process.**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**8. Describe the process of designing physical tables.**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**9. Explain different types of installation.**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**10. How can maintenance effectiveness be measured? Explain.**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**11. Draw the sequence diagram for the online food ordering system with the online payment facility.**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

**12. Write short notes on a) Integration testing b) Relational model**

*Answer: [Detailed answer will be added soon. Students should write a comprehensive answer covering key concepts, examples, and diagrams where applicable.]*

---

*These answer sheets are prepared for educational purposes. Students are encouraged to verify with official textbooks and course materials.*
