## Bachelor of Science in Computer Science and Information Technology

Course Title: **Introduction to Information Technology**

Code No: **CSC114** Semester: **1st Semester**

Full Marks: **60** Pass Marks: **24** Time: **dia.** **Discuss the applications of multimedia.****11.Differentiate security attack from security threat. How virus affects computer?****12.Write short notes on:****a. GISb. E-commerce**

*Candidates are required to answer the questions in their own words as far as practicable.*

### Section A

1. Differentiate analog computer with digital computer. What is CPU and how it works? What does an instruction cycle in CPU consists of?
2. What is computer network? Discuss different types of data transmission media in computer network with their advantages and disadvantages.
3. What is database management system? Why database management systems are used. Discuss the database system architecture.

### Section B

*Attempt any Eight questions[8×5=40]*

4. What is cache memory? How it is different from register?
5. Discuss about the source data entry device with example.
6. How binary addition is done? Show binary addition of (11001) with (11011).
7. What is software? How it differs from hardware? Why software is needed?
8. Describe the functionalities of operating system.
9. What is internet? Describe about the internet architecture.
10. Define multimedia. Discuss the applications of multimedia.
11. Differentiate security attack from security threat. How virus affects computer?
12. Write short notes on:**a. GISb. E-commerce**
